

TR-450

Manufactured in 304
Stainless Steel

The TR-450 is a compact, ergonomically designed parts washer, ideal for machined component precision cleaning. The TR-450 parts washer can be installed easily and conveniently into a manufacturing cell, and can handle a wide variety of complex small- or medium-size parts using standard baskets.

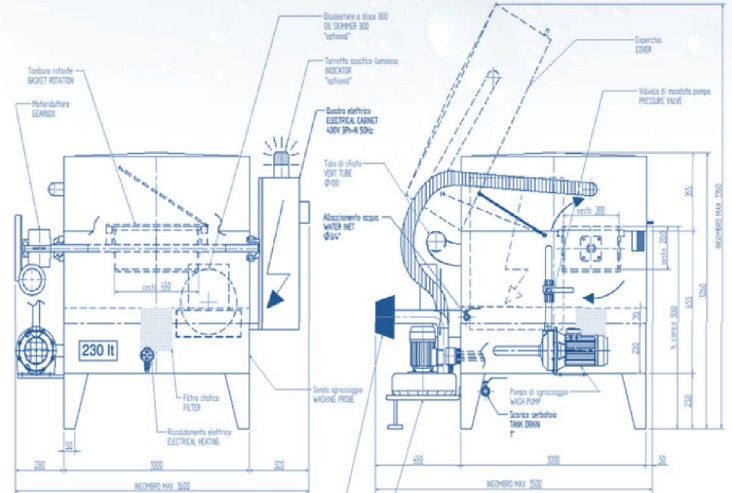

The rotating basket is sprayed by wash nozzles from the front, back and sides of the tank. During the cleaning cycle, the basket partially submerges as it rotates to ensure uniform cleaning and complete removal of contamination.

TR-450

FEATURES

- Rotational Basket Fixture
- Compact, Ergonomic Top Load Design
- NEMA-4 Rated Electrical Control Panel
- Parts Basket With Cover
- Manufactured In 304 Stainless Steel
- Stainless Steel Spray Manifolds With Optimized V-Jet Nozzles

SPECIFICATIONS

TR-450

Turntable Basket Diameter	Inches	L18" X W12" X H6"
Load Weight	Lbs	110
Basket Rotation	RPM	0.7-2.5
Fluid Capacity	Gal	60
Pump	HP	2
Spray Pressure	PSI	33
Flow Rate	G/Min	45
Heater	kW	6
Voltage	Volts	230V/460V
Phase	Phase	3
Amperage	Amps	60
Timer	Min	60
Max Operating Temperature	°F	140°
Length	Inches	57
Width	Inches	57
Height (lid open)	Inches	78
Net Weight	Inches	770

We reserve the right to modify without notice.

OPTIONS

- Heated Parts Dryer
- Auto Filler
- Process Indicator Tower
- Automatic Locking Lid
- Oil Skimmer
- Steam Exhaust
- Air Knife Blower
- 27/7 Heater Control
