ULTRA Ultrasonic Immersion Washer

Oil Sparger & Weir Tank

In stainless steel

The ULTRA Ultrasonic Series features a robust stainless steel design for heavy duty parts washing applications.

During the wash cycle, the pneumatically operated lift platform lowers the workload into the tank and agitates with an up-and-down motion, while the powerful ultrasonic energy quickly removes soils form hard to clean areas.

ULTRA Ultrasonic Immersion Washer

STANDARD FEATURES

- Stainless Steel Construction
 - Automatic Immersion Lift Platform
 - PLC Control
 - Compressed Air Blow-Off Gun
 - Oil Sparger & Weir Tank
- Low Water Shutoff
 - Thermostat Controlled Solution Heater
 - Adjustable Leveling Feet
 - Thermally Insulated
